

## Illustrative example for Manulife MPF Conservative Fund of the Manu-lifestyle (MPF) Scheme

Issued: 01-11-2009

### PURPOSE OF THE EXAMPLE

This example is intended to help you compare the total amounts of current annual fees payable under this Scheme with those under other registered schemes.

### THIS EXAMPLE ASSUMES THAT:

#### Your MPF Account Activities

- (a) your monthly relevant income is HK\$8,000
- (b) you have put all the accrued benefits into the Manulife MPF Conservative Fund; you have not switched your accrued benefits to other constituent funds during the financial period
- (c) you have not transferred any accrued benefits into or out of this Scheme during the financial period

#### Your Company Profile

- (d) 5 employees (including yourself) of your company participate in this Scheme
- (e) the monthly relevant income of each employee is HK\$8,000
- (f) no voluntary contribution is made
- (g) each of the other 4 employees has the same MPF account activities as yours

#### Investment Return & Savings Rate

- (h) the monthly rate of investment return is 0.5% on total assets
- (i) the prescribed savings rate is 3.25% per annum throughout the financial period

Based on these assumptions, the **total amounts of current annual fees** you need to pay under this Scheme (including those payable to the underlying approved pooled investment fund) in this financial period would be : HK\$69

Warnings : This is just an illustrative example. The actual amounts of fees you need to pay may be **higher or lower**, depending on your choice of investments and activities taken during the financial period. The Offering Document should be read for further details of the Scheme.
